# Sharath Kumar S

*UI & Graphic Designer, Bangalore*

I'm a multidisciplinary designer with over 4 years of experience across UI/UX, visual design, animation, and 2D/3D. I've worked on both product and marketing projects, which helps me approach design from both user and business perspectives. I focus on understanding problems, creating user flows and structured experiences, and delivering designs that are simple, effective, and work well in real scenarios. I'm now looking to contribute more at a product level and take on greater ownership in the design process.

## EXPERIENCE

### iLink Digital

*Creative Designer, Nov 2024 – Present*

My responsibilities include:

- Contributing to end-to-end UI/UX design, from understanding requirements to delivering final UI solutions
- Creating user flows, wireframes, and high-fidelity designs for web and application interfaces
- Designing interactive prototypes to validate concepts and improve usability
- Collaborating with developers to ensure design feasibility and smooth implementation
- Developing static and animated illustrations to enhance user engagement
- Creating icons, visual assets, and presentation materials aligned with brand guidelines
- Exploring AI-based tools to speed up design workflows and prototyping

### Factana Computing Pvt. Ltd.

*Graphic Designer, Jun 2022'– Nov 2024'*

My responsibilities include:

- Designed high-quality digital and print assets including brochures, banners, and marketing materials
- Created animated explainer videos and ad creatives for platforms like YouTube and Google Ads
- Developed 2D/3D illustrations and product visuals to enhance product communication
- Designed UI screens and contributed to improving user experience across web interfaces
- Worked closely with cross-functional teams to align visuals with product and marketing goals
- Delivered consistent brand visuals across websites, campaigns, and social media platforms
